

SJDT is dedicated to empowering young minds and touching hearts so as to lay a strong foundation for our children's bright future.

SJDT draws its inspiration from the four international educationalists.

From Montessori, we draw inspiration in fostering independence among children.

From Reggio, we draw inspiration to foster project-based learning among our children.

From Adler, we draw inspiration to support our children to engage in creative activities driven by their curiosity and interest.

From Waldrop, we draw inspiration to emphasize imagination among children.

The harmonious blend of the above educationalists allows us to offer a one-of-a-kind learning experience that empowers our young children to thrive, explore and discover their true potential. We are not just educators, we mentor nurturing the souls to discover that brilliance in each child.

One of the greatest gifts we offer to our children is the quality time to engage in meaningful conversation showing genuine interest in their experiences and sharing collaborative perspectives so as to create a strong bond to enrich the children's learning. We try to help our children to explore the world with open minds.

SJDT is an organization that is **putting children first.**
